

Register of Interests (Board Members)

Board Member's Name:		Dr Tracy Cunningham	
Date Appointed to the Board of the HRB		15 July 2019	
End of term on the Board of the HRB		14 July 2027	
Date of completion of register entry	24-April-2024	Date of most recent revision/update of register entry	07 April 2025

PART A - close colleagues

The term 'close colleagues' is defined as colleagues with whom the member of the Board / Board Committee has a close current or recent (covering at least the past 10 years) working partnership. It may be described in terms of college, faculty, department, or research group, and may include individuals or groups within or across institutions.

Where the conflict of Interest involves 'close colleagues' the member of the Board / Board Committee will not have access to documents, will not take part in discussions and will not take part in decisions

Please describe your 'close colleagues'

In December 2023, I decided to retire and no longer have an executive role in the pharmaceutical industry. However, as this is recent and for the previous 8 years I was predominantly involved in the development of new medicines or new indications for approved medicines. I would therefore consider Amryt Pharma (employed since April 2020) and AstraZeneca (Feb 2016- March 2020) employees as close colleagues.

Note: In AstraZeneca, I worked in late-stage development global oncology, hematology and a rare associated condition of neurofibromatosis type 1, based in Cambridge UK. My close colleagues were outside Ireland and none of the clinical studies involved Irish institutions or individuals. Amryt Pharma was acquired by Chiesi in 2023.

PART B – Wider Community

Defined as the wider community for which the Board /Board Committee member might reasonably be considered to have shared interests or loyalty. The wider community may be interpreted to include current or previous (covering at least the past ten years) place of employment, colleagues and others who share business/ research interests (e.g., cancer prevention or obesity).

Where the conflict of Interest involves 'wider community' the Board/Board Committee member may not have access to documents, take part in discussions or take part in decisions. A final decision in respect of specific items of Board/Board Committee business will be made by the Chairperson, normally after consultation with the member.

Please describe your 'wider community'

I have an interest in research in rare diseases most specifically in epidermolysis bullosa and would consider the Irish patient advocacy group, Debra as part of my wider community.

Part C – Domains of business/research

Domains of business/research in which the Board / Board Committee member is actively involved. Domains may be defined in terms of topics or methods/methodology. Depending on the context, this may be narrower or broader

Where the conflict of interest involves 'Domains of business/research' the Board/Board Committee member would take part in general discussions in these areas but would not take part in formal decisions relating to funding streams the specifically focus on these areas.

Please describe your 'Domains of business/research'.

My domains of research are oncology/haematology and rare diseases with a focus on registration studies to develop new medicines.

PART A - close colleagues

The term 'close colleagues' is defined as colleagues with whom the member of the Board / Board Committee has a close current or recent (covering at least the past 10 years) working partnership. It may be described in terms of college, faculty, department, or research group, and may include individuals or groups within or across institutions.

Where the conflict of Interest involves 'close colleagues' the member of the Board / Board Committee will not have access to documents, will not take part in discussions and will not take part in decisions

Please describe your 'close colleagues'

Close colleagues across the NGO sector primarily but not limited to domestic sexual and gender based violence organizations.

PART B – Wider Community

Defined as the wider community for which the Board /Board Committee member might reasonably be considered to have shared interests or loyalty. The wider community may be interpreted to include current or previous (covering at least the past ten years) place of employment, colleagues and others who share business/ research interests (e.g., cancer prevention or obesity).

Where the conflict of Interest involves 'wider community' the Board/Board Committee member may not have access to documents, take part in discussions or take part in decisions. A final decision in respect of specific items of Board/Board Committee business will be made by the Chairperson, normally after consultation with the member.

Please describe your ‘wider community’

Part C – Domains of business/research

Domains of business/research in which the Board / Board Committee member is actively involved. Domains may be defined in terms of topics or methods/methodology. Depending on the context, this may be narrower or broader

Where the conflict of interest involves ‘Domains of business/research’ the Board/Board Committee member would take part in general discussions in these areas but would not take part in formal decisions relating to funding streams the specifically focus on these areas.

Please describe your ‘Domains of business/research’.

Primary domain of business is within domestic, sexual and gender based violence at NGO and interagency level, including occasionally commissioning and conducting research. I also work across the Children’s and Rights sectors with a particular interest in data protection rights and cyber safety. I sit on various advisory structures or engage in work with statutory agencies for example the HEA. I am chairperson of the National Statistics Board.
